NEW TURN IN ANTI-BRITISH MOVE: BILINGUAL LEAFLETS THROWN BY JAPANESE PLANE OVER DIPLOMATIC QUARTER

"Spontaneous" Feeling In Japan Now Spreading To Nationals In China

PEIPING, Aug. 13 (REUTER)—ANTI-BRITISH ACTIVITIES TOOK A NEW TURN TO-DAY WHEN A JAPANESE PLANE THIS MORNING FLEW AT A DANGEROUSLY LOW ALTITUDE OVER THE DIPLOMATIC QUARTER throwing overboard many anti-British leaflets in English and Chinese with the words, "Down with Britain—Exclude the British."

The British authorities immediately made representations to the Japanese Embassy, which explained that the spontaneous anti-British feeling in Japan has now spread to the Japanese nationals in China.

EXPANSION OF CAMPAIGN

TOKYO, Aug. 13 (REUTER)—Expansion and intensification of the anti-British campaign in China was decided by the Anti-British Campaign Committee of North China, meeting in Tientsin yesterday.

The plan includes the establishment of central machinery to control and unify anti-British organizations in various parts of China, to observe an anti-British demonstration day and to publish an anti-British newspaper.

The project will be submitted to the plenary meeting next week.

SPONSORS OF MOVEMENT

PEIPING, Aug. 12 (REUTER)—The Japanese authorities are beginning to admit that they are the sponsors of the anti-British movement in North China, as witness the statements of Colonel Nagai, the Peiping Army spokesman.

An important anti-British meeting will be held in Tientsin on Monday by those responsible for its organization, at which they will discuss plans to increase the severity of the movement.

These plans are reported to include making all anti-British organization permanent and linking

them to the Japanese-organized "Hsin Min Hui" (the notorious "New People's Society").

CHINESE RESIGN

TIENTSIN, Aug. 12 (REUTER)—As a result of intimidation, the majority of the Chinese employees, 65 out of 70, of the International Export Company have resigned.

The employees explained that if they did not leave they might risk their own lives and those of their families.

NO DIPLOMAS

The board of education of the "provisional Government of Peiping" has decreed that no diplomas would be granted in future to students in Anglo-Chinese colleges. It is estimated that about a thousand students will be affected by the new regulation and it is believed that the majority of them will complete their studies in Japan—controlled college. (T.O.)

SURRENDER ALL TO NO PURPOSE

Parleys Again Face Collapse

LONDON, Aug. 13 (REUTER)—Discussing the reported new hitch in the Tokyo talks, the diplomatic correspondent of the "Sunday Times" points out that no confirmation has reached London but it would cause no surprise if it were true.

He adds that the conversations between Sir Robert Craigie and the Foreign Office on the safeguarding of order in Tientsin were within an ace of agreement. The organization of the police in the International Settlement in Shanghai, where, incidentally, United States citizens play a leading role in the Municipal Council, has been taken as a model.

"DUTY"

In Shanghai, Japanese observers are able to see for themselves that the Settlement police discharge their duty of suppressing anti-Japanese activity. Something of the same sort has been envisaged for Tientsin, and the new instructions sent to Sir Robert Craigie should, in the British view, clinch the agreement.

China Lodges Protest Against Surrender Of Four Alleged Suspects

CHUNGKING, Aug. 12 (CENTRAL)—A spokesman of the Foreign Ministry in an important statement today declared that the Chinese Government had lodged a protest with the British Government over the latter's decision to hand over the four Chinese detained by the British Municipal Police in Tientsin to the so-called local District Court.

This decision by the British Government, the spokesman pointed out, is clearly illegal and incompatible with Britain's repeated declarations, in her capacity as a member of the League of Nations, not to recognize any situation created by force.

If the four Chinese are not guilty, they should have been released long ago, and if they were suspect, they should be handed over to the Chinese Government instead of the so-called Local District Court in Tientsin, which is universally recognized as a part of the Japanese-created puppet organ in Japan's aggression of China, the spokesman asserted.

The spokesman pointed out that it would be superfluous for him to point out the numerous instances of innocent Chinese people being tortured and put under third degree by the Japanese, and what fate will be awaiting the four men.

INDEFENSIBLE POSITION

The spokesman said that, by her decision, Britain has placed herself in an indefensible position both as regards the legality and righteousness of the matter. The decision, he said, is even more

STAFF TALKS IN MOSCOW

MOSCOW, Aug. 13 (REUTER)—The military talks between the representatives of the British, French and Soviet armies were resumed this morning, the session lasting three-quarters of an hour.

At the suggestion of the leader of the British delegation, Admiral Sir Reginald Plunkett-Errol-Drax there will be two meetings daily until the talks are concluded.

JAPANESE ARMY DELEGATES TO LEAVE TOKYO

TOKYO, Aug. 13 (REUTER)—The military officers who have been participating in the Anglo-Japanese conference are returning to Tientsin by air on August 14 to resume their military duties because the final instructions to the British delegates have not arrived according to "Domei."

Major-General Muto, leader of the delegation, declared that further delay was unwarrantable and added that "the policing and economic problems were inseparable and it is therefore impossible to consider them separately as Great Britain requested."

The United States Postmaster General, Col. James A. Farley, at present in Warsaw was on Friday the guest of the Polish President Moscicki at luncheon at the Presidential Palace. The luncheon was attended also by the American Ambassador in Warsaw, the Polish Foreign Minister and the Polish Minister of Communications. (T.O.)

P. AND O. GUARD AGAINST I.R.A.

LONDON, Aug. 13 (REUTER)—As a precautionary measure, taken it is understood, against possible I.R.A. outrages, only bona fide passengers were allowed to go aboard the P. and O. liners Stratheden and Ranpura before they sailed from Southampton on a Mediterranean cruise and for Yokohama, respectively, yesterday.

A notice posted at the gangway stated that no visitors could be allowed to either ship and, according to the "News of the World," scores of disappointed visitors, many of whom were in possession of recognized permits, were stopped at the gangways.

Some Tense Weeks Lie Ahead In Europe

GERMANY MAY THREATEN HUNGARY

LONDON, August 13 (REUTER)—Some tense weeks obviously lie ahead in Europe, writes the diplomatic correspondent of the "Sunday Times."

Germany appears bent on pressing a military alliance on Budapest which will give her the right of transit for German troops through Hungary enabling her to turn the Pollack flank and attack through Ruthenia.

Hungary would doubtless be provided support in her territorial claims against Rumania. The writer adds that it remains to be seen whether even threat of an invasion would force Budapest to take this path.

In Admiral Von Horthy, Regent, and the Prime Minister, Count M. Teleki, Hungary possesses leaders of resolution.

Read the following carefully if you please:-

To celebrate the 82nd Anniversary of the Hongkong Daily Press, the oldest morning paper in Hongkong, which was established on October 1, 1857, a special supplement is to be issued. This will be printed on good quality paper and will be profusely illustrated, and it will give the best presentation of Hongkong yet attempted.

As the Hongkong Daily Press's 82nd Anniversary falls ten days before October 10, the Double-Tenth, which is China's National Day, it is proposed to commemorate the occasion in the same special supplement which will, therefore, also give a comprehensive account of the progress of the Republic of China as made under the guidance of the Kuo Min Tang.

It being the wish of the publishers of the Hongkong Daily Press to emphasize Sino-British friendship as the theme of the special supplement, a cover design clearly presenting this theme is being sought. With a view to securing a suitable design, it is proposed to hold a contest, the rules of which follow:-

HONGKONG DAILY PRESS 82nd ANNIVERSARY COVER-DESIGN CONTEST.

RULES.

- The size of the design must be exactly 10½ inches wide and 15½ inches long, including the title.
- The design may be done in colours but such colours must not exceed three in number. Gold or silver may, however, be added.
- The central theme of the design must be "Sino-British Friendship."
- Designs submitted must reach the Director of the Contest on or before August 31, 1939.
- Competitors may send in as many designs as they wish but each design must be accompanied by a special form provided by the Hongkong Daily Press or clipped therewith. The names and addresses of competitors must be written plainly in English on these forms but no name or mark shall be attached to the design itself.
- Designs acceptable for the contest shall be divided into two classes:—
 - Finished design.
 - Design in outline or a description, or idea, of a design.
- Prizes for the winning designs shall be as follows:—

"A" class—First prize \$50
Second prize 10.
Third prize 5.
"B" class—First prize \$20
Second prize 5

8. Winning designs or ideas shall become the property of the Hongkong Daily Press but others may be returned upon application.

H.K. DOCTOR CENSURED

It is published in the "Government Gazette" that as a result of an inquiry held by the Medical Board on June 6, 1939, a resolution was passed that Dr. Arthur Fung be censured for signing two vaccination and inoculation certificates in blank spaces, enabling them to be signed to persons who had not in fact been vaccinated or inoculated as purported to be stated in the said certificates.

Your Screen Test

1. What was the name, before she entered films, of the actress recently married to Clark Gable?
2. What two Emily Bronte novels have been made into pictures?
3. What is the first movie from Hollywood in which the agents of a foreign dictatorship, pictured unsympathetically are called by their right names?
4. What screen actress recently was praised unanimously by New York theatre critics in what they called the greatest acting performance of her career?
5. In what picture (a) did an actor attract attention by flipping a coin; (b) was a comic pantomime once performed with two forks and two rolls; (c) did an actress sit and watch herself dance; (d) was an important appointment made for the 102nd floor of New York City's Empire State building?

Each question is worth 20 points. A score of 90 or above is colossal; 80 is excellent and 60 is good.

The Answers

1. Jane Peters (Carole Lombard).
2. "Jane Eyre" in which Virginia Bruce appeared; and "Wuthering Heights," with Merle Oberon, Laurence Olivier and David Niven.
3. "The Confessions of a Nazi Spy."
4. Katherine Hepburn, in "The Philadelphia Story."
5. (a) George Raft in "Scarface"; (b) "The Gold Rush," with Charlie Chaplin; (c) Shirley Temple in "The Little Princess"; (d) in "Love Affair." Charles Boyer and Irene Dunne were supposed to meet there.

36,000 PLANES PER YEAR**MASS PRODUCTION PLANS IN THE UNITED STATES**

THE UNITED STATES WILL SHORTLY BE IN A POSITION TO BUILD 36,000 STOUT, CHEAP, FAST AEROPLANES PER YEAR, EVEN MORE MIGHT BE CONSTRUCTED, FOR THIS IS AN ARBITRARY FIGURE BASED SOLELY ON THE FUSELAGE PRODUCTION OF A ROUND NUMBER OF UN-SKILLED WORKMEN - TOTALLING 2,000.

This spectacular achievement, eclipsing by the tens of thousands the planes which Germany can build in a year, which production forced the Munich agreement last September, will be soon an accomplished fact when the new, completely practical process for moulding fuselages and wings goes into commercial production.

Fuselage Problem
Hitherto, the bottleneck in plane production has been in the construction of the fuselage. All other plane parts and equipment can be made by mass production methods, yet each fuselage has always been handmade and has required days of work to put millions of rivets into its metal skin to hold the struts and stringers in place.

By the new process, two unskilled labourers can turn out an exceptionally strong fuselage, complete in two sections, in a little over two hours, ready for assembly.

The process itself is a relatively simple one of forming plywood in a die, partially impregnating it with a phenolic resin and then pressing it into a cohesive smooth-surfaced mass.

"Winged Fear"

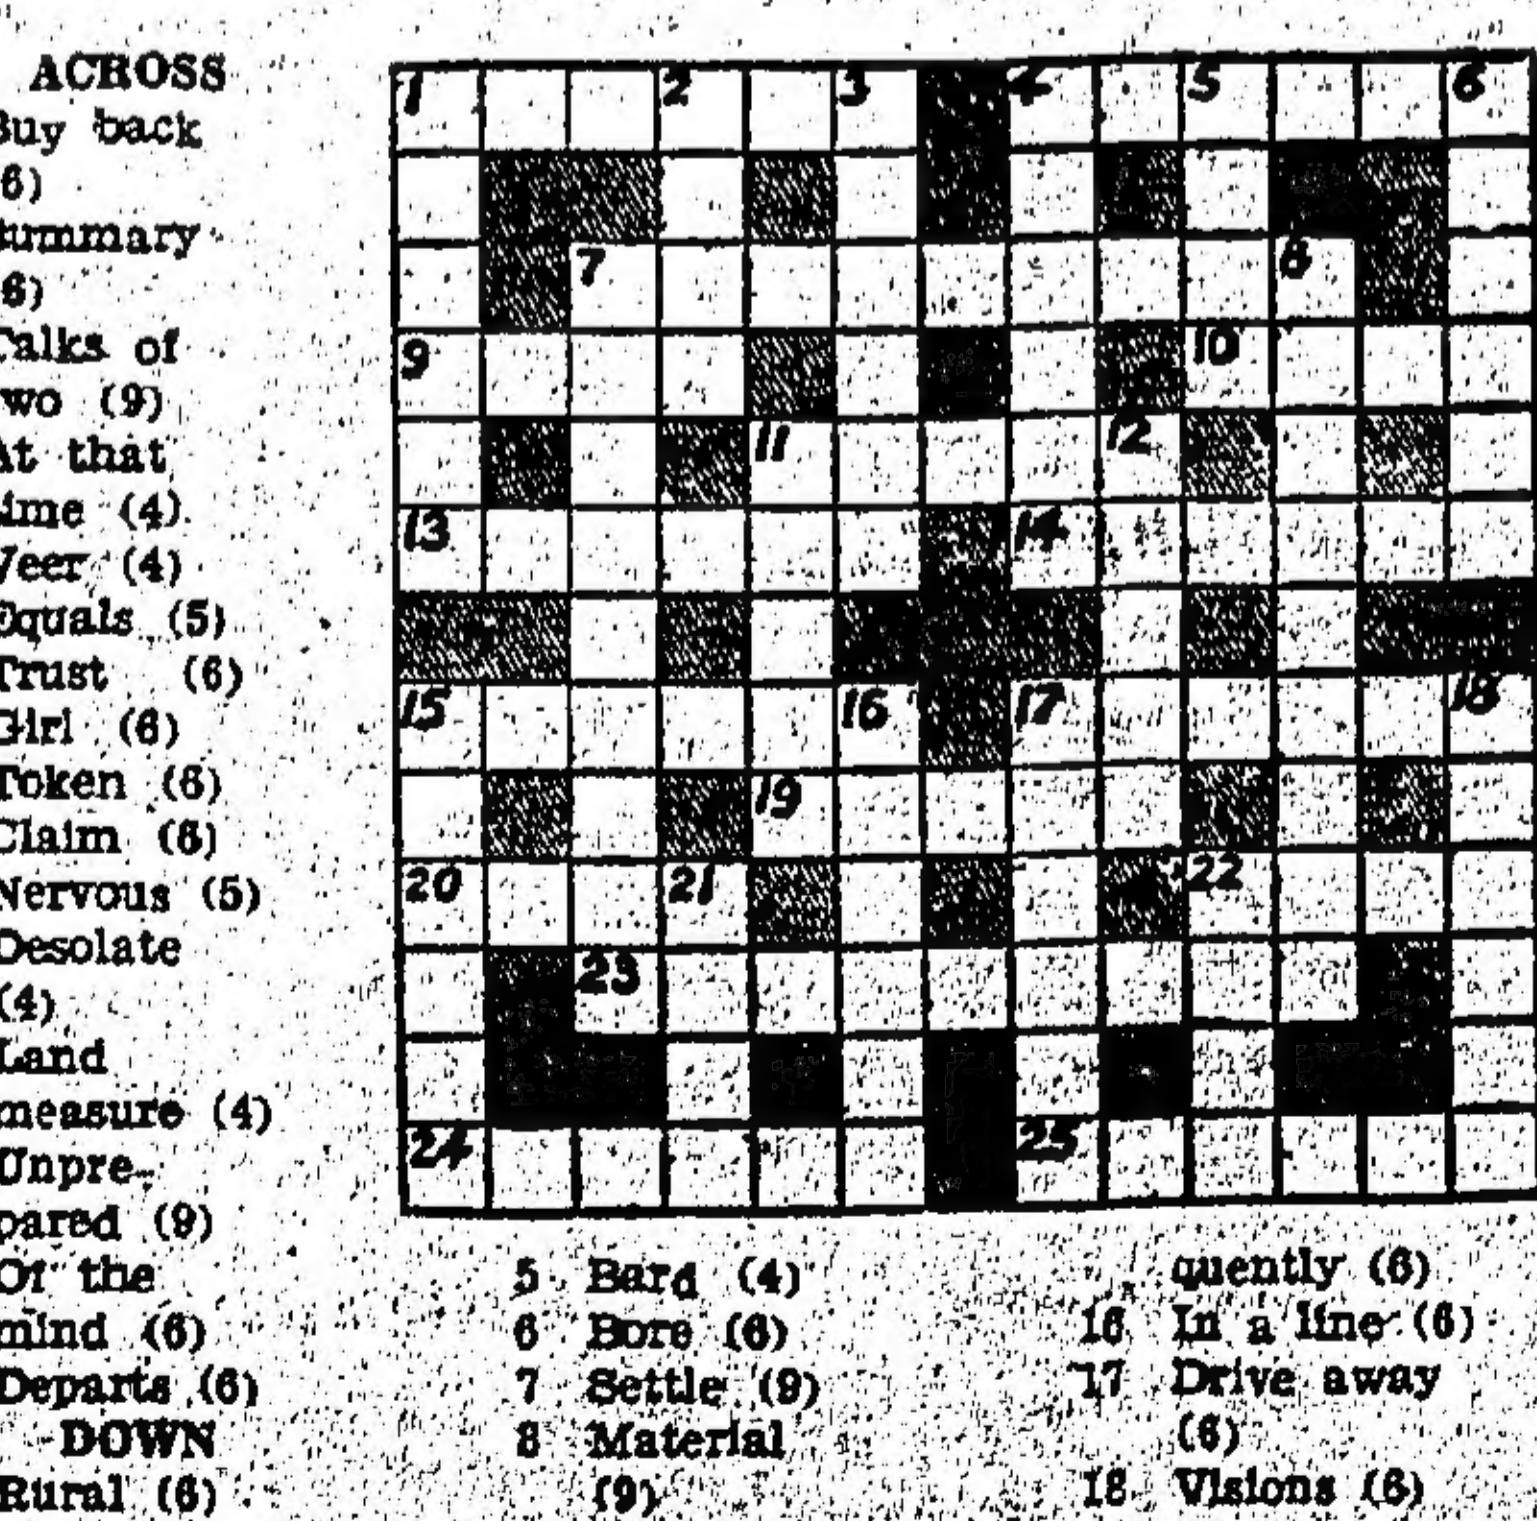

Among officials there is little doubt that other nations will finally develop a like process. When this happens the "winged fear" that made Munich possibly need never be repeated. No one nation will be able to cow another from the air long.

It is believed that with planes so easily built, no one can maintain a preponderant number and the military plane will fall into a category like that of rifles, where the weight of numbers will have little influence on international relations.

GIRL'S SERIOUS ALLEGATION

A serious allegation was made by a 17-year-old Chinese girl, Chan Pung-kan, against her master, a Eurasian, in her report to the police on Saturday night, after she had been rescued when she plunged into the harbour while travelling on board the ferry, Man Tak. In her report, she alleged that she had been thrice molested by her master, and the last time was seen by her mistress who had returned home, and her mistress ordered her out after assaulting her. She was sent to the Queen Mary Hospital for medical examination.

After a five-month investigation tour, the Szechuan-Sikong Investigation Commission has returned to Chungking. They have made a thorough study of the political administration, conscription, policing, people's livelihood, and economic reconstruction in these two provinces and are drafting a report to be submitted to the fourth session of the People's Political Council.

MILLIONAIRE'S HEIR — A WAIF

LONDON, Aug. 4 (By Air Mail) — An adopted baby, whose parentage is being kept secret, was announced to-day as heir to one of the biggest fortunes in the United States.

He will grow up one of the sixth richest men in the world—and he came from a Chicago foundling home.

The baby, aged two months, kicked and gurgled in the grounds of a magnificent country estate in Pennsylvania while his new parents, Mr. and Mrs. Richard King Mellon, announced his adoption.

LEFT £40,000,000

"Where did he come from?" Mr. Mellon was asked. He chuckled and replied: "The

stork brought him. My wife and I named him Richard Prosser Mellon."

Richard Mellon is nephew of the late Mr. Andrew Mellon, banker and U.S. Ambassador to Britain in 1932-33, who left £40,000,000. He also shared with his sister £4,500,000 left by his father, Mr. R. B. Mellon.

MANY MORE

And he is expected to inherit many more millions. In time these will come to the mystery baby.

Richard Mellon is president of the Mellon National Bank and director of a dozen wealthy companies.

His wife is also an heiress. Her father was Seward Prosser, a great power in Wall Street.

Mr. Mellon, who is forty, was educated at Clare College, Cambridge.

Illegitimate Child

The League of Nations has prepared a valuable survey of the legal position of the illegitimate child, and it hoped later to produce a report on the social side of the same problem.

The Christian view of marriage, which is common to most of Europe, has necessarily made a sharp barrier between legitimate and illegitimate children which has at some times and in some countries forced them into the condition of outlaws and has almost always severely handicapped their progress in life.

In many countries, it is true, public opinion has considerably modified the harshness of official disapproval, but even when social intolerance has been relaxed there has seldom been much redress on legal grounds.

In Eastern countries the lot of the illegitimate child is often equally unfortunate, though the report points out that this is as likely to be because their mothers are drawn from depressed or slave classes as because of the disapproval of society.

Initial Problem

The initial legal problem concerning illegitimate children is their name; law and custom vary from country to country and most have some merit, for as the report admits,

this problem is all the more complicated inasmuch as the solution which would seem to be the most equitable is not always very satisfactory, for if the child is given his father's name his illegitimacy is none the less revealed if he is in the care of his mother, who will usually bear a different name.

That particular difficulty can only really be overcome if the prejudice against illegitimate children is abandoned, at any rate in social life. Legally the child is liable to suffer most (and the mother perhaps even more so) from the law of inheritance.

Where the family is the basis of the community, the illegitimate child is necessarily considered after the legitimate children or, as often as not, not at all. Only in countries where there is a free disposition of property is the child sometimes not penalised.

The mother may suffer in this fashion independently, and the report emphasises that the problem of the child cannot be separated from that of the mother. The first effects of intolerance will be felt by the mother and may prejudice her for ever the future of the child.

The Chekiang Provincial Budget for cultural and educational activities during the current year, amounting to \$2,508,571, has been approved by the Executive Yuan of the Chinese National Government. This figure shows an increase of \$781,875 as compared with the budget for the previous year, and this is accounted for by the fact that greater publicity activities have been carried on among the general populace since the outbreak of the current Sino-Japanese hostilities.

Ambulance With All Steel Body

DONATION BY CHINESE WOMEN IN BATAVIA

The formal handing over of a fully equipped ambulance, jointly donated by the Chinese Women's Association, Batavia, and the Hongkong Chinese Women's Club, will take place in Statue Square at 3 o'clock, this afternoon.

This ambulance with an all steel body, complete with seven steel-welded stretchers, is of special construction and capable of accommodating fourteen heavily wounded. As a result of field experience, this vehicle has also been constructed to stand the strain of rough roads traversed in all war areas and should therefore be a distinct improvement in service and comfort.

The ambulance to be donated jointly by the Batavia Chinese Women's Association and the Hongkong Chinese Women's Club is the first of its kind and construction to be presented by any organization to the Chinese Red Cross.

It is notified in the "Government Gazette" that Mr. Stephen Francis Balfour has been authorized to hold a Small Debts Court in the New Territories at the following places:—The Magistracy, Tai Po, the Land Office, Ping Shan, and the charge rooms of the Police Stations at Au Tau, Ping Shan, Sha Tin Kok, Sai Kung, Sha Tin, Sheung Shui, Lok Ma Chau and Castle Peak, with effect from August 9, 1939.

"That sentence," he added, "should be printed in large letters on every marriage certificate."

A DOCTOR'S STORY

MAN DEVELOPS ASTHMA TO ESCAPE HIS WIFE

LONDON, Aug. 3 (By Air Mail)—Dr. Neil Beattie, of the Ministry of Health, told the London Group for Industrial Psychology, at their summer school here to-day, about a man who lacked the courage to stand up to his wife and escaped by developing such a bad attack of asthma that he had to go to St. Mary's Hospital, Paddington.

At St. Mary's he lost his asthma, but it returned as soon as he went home to the "dragon."

UNHEALTHY HOMES

Discussing "unhealthy homes," Dr. Beattie said that the worst type was the mother or woman-dominated home, where father had to leave his boots outside and must not smoke except in the toolhouse.

The second was father or man-dominated home, "where everything that papa wants is given him and the whole organisation of the home revolves around him."

The third was the child-dominated home. This was generally where there was an only child who ruled his parents "as a general orders his troops about."

TASK FOR TWO

"The healthy home," said Dr. Beattie, "is one in which the father and mother have entered into a marital relationship based upon the principle of co-equal partnership, and where it is realised and understood that marriage is a task for two persons determined to enrich and relieve each other's lives."

"That sentence," he added, "should be printed in large letters on every marriage certificate."

KOWLOON UNION CHURCH TO APPLY FOR ENACTMENT OF BILL FOR INCORPORATION

Notice is given in the "Government Gazette" that the Kowloon Union Church intend at an early date to apply to the Legislative Council of the Colony of Hongkong for the enactment of a Bill entitled "An Ordinance to provide for the incorporation of the Kowloon Union Church."

A Copy of the proposed Bill is printed hereunder.

Dated this 8th day of August, 1939.

WILKINSON & GRIST.

Solicitors For The Kowloon Union Church.

An Ordinance to provide for the incorporation of the Kowloon Union Church.

Be it enacted by the Governor of Hongkong, with the advice and consent of the Legislative Council thereof, as follows:—

1. This Ordinance may be cited as the Kowloon Union Church Incorporation Ordinance, 1939.

2. The Trustees for the time being of the Kowloon Union Church shall be a body corporate under the name of "The Trustees of the Kowloon Union Church" (hereinafter referred to as "the Corporation").

3. The Corporation by the name aforesaid shall have perpetual succession and shall and may sue and be sued in all Courts and shall and may have and use a common seal and may from time to time break, change, alter and make anew the said seal as to the Corporation may seem fit.

4. The Corporation shall have power to acquire, accept leases of, purchase, take, hold and enjoy any lands, buildings, messuages or tenements of whatever nature or kind soever and wheresoever situated also any endowments of the Kowloon Union Church and the investments and securities representing the same, and also to invest monies upon mortgage of any lands, building, messuages or tenements or upon mortgages, debentures, stocks, shares or securities of any Government, Municipality, Corporation, Company or person and also to purchase, acquire and possess goods and chattels of whatever nature and kind soever.

5. The Corporation shall further have power by deed under its seal to grant, convey, assign, lease, surrender, exchange, partition, yield up, mortgage, demise, reassign, transfer or otherwise dispose of any lands, buildings, messuages, tenements, mortgages, debentures, stocks, funds, shares or securities, goods and chattels which are for the time being vested in or belonging to the Corporation upon such terms as to the Corporation may seem fit.

6. John Edgar Anderson, Leonard Starbuck, Robert Taylor, James Downey Thomson and the Reverend Frank Short having furnished to the Governor satisfactory evidence of their appointment as Trustees shall for the purposes of this Ordinance be deemed to be the Trustees of the Kowloon Union Church until their respective death, resignation, or the termination of their respective appointments.

7. (a) When any other persons are appointed Trustees of the Kowloon Union Church in accordance with the Constitution of the said Church such persons shall within three weeks after appointment or within such further time as may be allowed by the Governor, furnish the Governor with satisfactory evidence of their appointment.

(b) A notification in the Gazette under the hand of the Colonial Secretary that such evidence has been furnished to the Governor by any such person shall be conclusive evidence of such appointment.

8. All deeds and other instruments requiring the seal of the Corporation shall be sealed with the common seal of the Corporation and signed by at least two of the Trustees.

9. All that piece or parcel of ground registered in the Land Office as Kowloon Inland Lot No. 2174 together with all rights, easements, and apportionments thereto belonging or usually held, occupied or enjoyed therewith is hereby transferred to and vested in the Corporation for the unexpired residue of the term of years created by the Crown Lease thereof together with the right of renewal contained in the said Lease, subject to the payment of the rents and the performance and observance of the covenants and conditions therein contained and subject to all mortgages and charges (if any) in respect thereof.

10. The services at the Kowloon Union Church shall be regulated

Merchant Shipping Ordinance Amendment

The following is published in the "Government Gazette":—

In exercise of the powers conferred by Section 38 (2) and subsections (1) and (2) Section 42 of the Merchant Shipping Ordinance, 1899, the Governor in Council amends Table F in the regulations made under the said Ordinance and published on page 319 of the Regulations of Hongkong (1937 Edition).

1. The heading thereto is rescinded and the following substituted therefore:—

Regulation and conditions limiting the number of passengers which may be carried on River Steamers.

2. Regulation 6 is rescinded and the following regulations are added:—

"(1) On the lower deck one passenger shall be deducted for each 6 superficial feet and on the upper deck one passenger shall be deducted for each 9 superficial feet where part of the deck is used for the stock (including fish) or cargo.

(2) Where part of the dock is used for live stock (including fish) or cargo such part shall be separated from the space intended to be occupied by passengers by means of expanded metal or other barriers not less effective so constructed as to prevent excreta and other liquid refuse from flowing or being carried into the space occupied by live stock (including fish) and cargo and also to prevent liquid from fruit or vegetables, cattle excreta or other liquid refuse flowing or being carried into the space intended to be occupied by passengers.

7. Passengers, other than bona fide attendants on live stock (including fish), shall not be carried in the space reserved for live stock (including fish) or cargo.

8. Passengers shall not be carried in the crew's quarters.

9. An owner or master who does not comply with the requirements of any of the foregoing regulations shall be liable to a fine not exceeding one hundred and fifty dollars.

SUPPLEMENTARY AIR ROUTE

Commencing last week Imperial Airways have added a weekly supplementary service, out of Hongkong, to a part of the Empire route.

Each week, one section of the Monday's double service leaving Kai Tak will continue from Bangkok to Calcutta, carrying mail. The return trip from the Indian port will be made on Wednesdays, the plane arriving in Hongkong on Thursday.

This new temporary arrangement does not change the regular mail schedule, nor does it offer added postal or passenger service in or out of Hongkong. It is mainly for relief of the congested Empire route.

The local Imperial Airways flying staff and equipment, at present, under control of the local manager, Mr. M. H. Curtis, includes four set of crews: Captain Joe Davies and First Officer I. Harvey, arriving to-day from London, Captain A. B. Dykes and First Officer W. J. Bressy, Captain J. N. Wilson and First Officer J. A. Sandwick, Captain L. J. M. White and First Officer J. Haeburn. The four aircraft stationed in Hongkong are Dorado, Denebola, Dardanus, Delphinus. The Dela, another plane of the same design is undergoing a quarterly overhaul at Kai Tak.

AIR ACTION AT ADEN

Notes from an official source on recent operations by the R.A.F. in the Aden Command show that there were further reports during March of the concentration of Yemeni forces at certain points on the frontier, and in one case a post at Amiri (Protectorate territory) was occupied. A protest was lodged, followed by an air demonstration, whereupon the Yemeni soldiers withdrew.

CRANWELL COMMAND CHANGE

The passing-out inspection of cadets of the R.A.F. College, Cranwell, at which the inspecting officer was General Lord Gort, V.C., Chief of the Imperial General Staff, marked the termination of the command of the college by Air Vice-Marshal J. E. A. Baldwin, C.B., D.S.O., O.B.E.

NAVY'S NEW NAMES

Fifty-two names of ships to be built under this year's naval programme are announced. Many of them are old Navy names, like Nonpareil and Indefatigable. Others only came into the Navy List in the Great War, and several (among them the Blackpool) are now Indefatigable goes to the aircraft-carrier.

Nearly all the new ships of this type are carrying on the great names of the battle cruisers that fought under Beatty and the Indefatigable of that day was blown up in the Battle of Jutland.

Among the sixteen destroyers, five bear names that figure in the records of Jutland, including the Nestor, in which the gallant Barry Bishop won his V.C. All the other new destroyer names, except one, figured in various "scrapes" in the war.

The Exception

The exception is the Martin, that has been in the Navy List almost continuously since 1894. Twenty new escort vessels are all named after famous "hunts"—Quorn, Pritchley, Cattistock, and so on—with one notable omission, the Belvoir.

Other new names are among the minesweepers, and there may be some dispute among municipalities about the Bangor. Is it a Welsh or a Northern Ireland name? Bedlington, Blackpool, Ely, Rothesay, and Peterhead are Northern representatives while the South gets only Bridport and Rye. The new fast minelayer is to be called the Welshman.

There are still two dozen more ships in the current programme whose names have not yet been announced. They include the two battleships

and our position in the future will be gravely jeopardized.

WHAT GUARANTEES are there that these four unfortunate men will receive a fair trial apart from Tokyo's worthless promises? What assurances have we that they will not be tortured and brutally done to death, as most probably they will be? What safeguards are there that other Chinese residents of the concessions and settlements they will not be victims of similar framed-up charges and handed over to the Japanese? For are not all Chinese members of an organization that is illegal in the eyes of the Japanese—members of the Chinese race and citizens of the Chinese Republic? Mr. Chamberlain and his associates assert that they are satisfied that a prima facie case has been made out against the four men. Why this sudden volte face when, only up to a few days ago, the Japanese were able to produce only the flimsiest evidence? If the Japanese had sufficient evidence, why wait until now to produce it? Why was it not produced before when fuss and ill-feeling could have been averted? The answer is fairly obvious. The evidence produced must be very weak and the Japanese were determined to start an anti-British campaign with or without this case as an excuse.

DELIVERY of the men to the Japanese-controlled courts for "trial" instead of to the proper and competent Chinese authorities is a direct and open breach of the treaties which Britain has signed with China and, as the Chinese Ambassador's Note to the Foreign Office rightly points out, it might be interpreted as de facto recognition of an illegal regime and involve far-reaching political principles and consequences.

IT IS SATISFACTORY to note that the Home press has taken a strong stand in the case and that the newspapers, which, after all, represent the opinions of the British people, who are entirely in disagreement with the Chamberlain Government in its appeasement policy in the Far East, are dealing with the matter in decidedly vigorous terms for they know that Japan will not be satisfied with the handing over of the four men but will continue to present demand after demand so long as they feel that there is any hope of acceptance. In view of the fact that writ of habeas corpus is still sub judice, we will defer comment on that for the present but we are sure that it has the support of the majority of British people who believe in justice and fair play.

IN THE NAME of British honour and fair play and in the name of justice and humanity, we appeal to Mr. Chamberlain to reconsider his decision before it is too late. We appeal to him to remember that the delivery of the four men is contrary to all tenets of international law, British law, and Britain's obligations under Article 21 of the Tientsin Treaty with China.

H.K. OBSERVES
SHAI WAR
ANNIVERSARY

The second anniversary of the outbreak of Shanghai hostilities was observed locally yesterday, when large gatherings assembled at various places, while the "Offer Gold" campaign was continued.

A meeting was held at the Chinese Chamber of Commerce, when the Chairman, Mr. Philip Cockchin, presided.

The workers of the Chung Hua Book Store contributed a portion of their salaries to the "Offer Gold" movement.

Newspaper boys also sold Chinese papers for patriotic donations.

Meanwhile, a movement was started to eliminate newspapers which

are the mouthpieces of Wang Ching-wei, the expelled Kuomintang leader. Handbills were distributed by a "Hongkong Association for the Elimination of Traitors' Newspapers," urging the public not to read such newspapers, the newspaper boys not to sell them and the printers not to print them.

Chinese actors and actresses

also did their part to swell the war chest.

Dramatic performances

were held at Lee Theatre and Ko Shing Theatre, while the Queen's Theatre gave an extra movie show.

Sing-song girls raised funds by singing at the roof gardens of the China Emporium, and the Sincere Company, and the Lin Heung, Wan Heung and Tim Nam Tea Houses.

Hello & Goodbye

(BY A. W. HYER)

The American President Line and the officials of the Hongkong & Kowloon Wharf & Godown Co. deserve congratulations. Between these two outstanding shipping companies a baggage system is slowly, but surely, being put into effect on the piers and the new system and efficiency leaves little to be desired but that other large steamship lines will avail themselves of the privilege.

Six hundred and eighteen pieces of baggage for the Pres. Taft passed efficiently and quickly through the Godown Baggage Terminal last Friday. There were no coolies jamming the pier with luggage or annoying ship visitors and passengers on board.

All the baggage was deposited at the Terminal and from there the passengers' troubles were over, the coolies of the American President Line and the Hongkong & Kowloon Wharf & Godown Co. transporting all the baggage to the stateroom or baggage hold as the case may be.

President Taft:

FRIDAY, 10 A.M. the President Taft was in from her call in Manila.

Mr. and Mrs. G. A. Goodhan returned from a delightful honeymoon in the Philippines. The Headmaster of the Diocesan Boys' School and his lovely bride were presented with a well populated and happy welcome home on their arrival.

Business affairs bring Mr. M. Michaux, of Ucometal, and Mr. A. E. Salvesen, of Siemens Co., down to our city for a few days. Conditions in the north could be better and everyone has hopes.

Genoa Bound:

SATURDAY, 11 A.M. there were crowds of people climbing the gangway to the m.v. Victoria which had just arrived in port from Shanghai.

The outstanding passengers aboard on the trip from the North were Mr. and Mrs. Cyril Rogers. This gentleman has meant "news" to everyone in the Far East during the past month, as he represents the British Government and the Bank of England in all affairs relative to the Anglo-Chinese Fund.

Mr. I. A. Beith, executive official of Jardine, Matheson and Co. Ltd., travelling down from Shanghai for a short business call and meetings.

Business affairs bring Mr. M. Michaux, of Ucometal, and Mr. A. E. Salvesen, of Siemens Co., down to our city for a few days. Conditions in the north could be better and everyone has hopes.

Genoa Bound:

SATURDAY, 6 P.M. and with the regular three whistle blasts the m.v. Victoria moved down the bay heading for southern ports and Genoa.

With much excitement Mr. and Mrs. C. Mose with their two children were sailing on a healthy and lovely tan in the south!

U.S. Bound:

SATURDAY, 8 A.M. a sleepy group of passengers stood at the President Taft's rail and bid friends and Hongkong adios. The American President Line's steamer was off, bound for Shanghai, Japan and American ports.

The sleepiest passengers of the lot was the well-known local Manager of the American President Line, Mr. T. B. Wilson. Urgent business calls this jolly round-trip to the Shanghai office of his company. Probably he'll be sailing home in the President Cleveland this week.

Another member of the local American President Line office taking his departure from our city and travelling to his family in San Francisco, was Mr. E. R. Hearst. Six months vacation are in store for the well-known "bowler" and what a send-off friends gave him the evening before sailing!

A very quiet and almost shy person is Mr. C. G. Brookes who is on a vacation par excellence. This Canadian who has been living in South Africa for the past fifteen years has stuck to the grindstone for over ten decades. Now he will enjoy six months and more of travelling and renewing acquaintance with Canada and America with a flight across the Atlantic and a visit to England and Europe.

WEST CHINA, LAND OF OPPORTUNITY

Prof. S. Lautenschlager Speaks At Y.M.C.A.

Go West, young man, to West China! There a New China is being built. There lies so much of the undeveloped wealth of China. There, 2,000 years ago, an engineer named Li Ping built a system of irrigation works that gave to Szechuan a soil productive of four crops an year.

When Li Ping died he left his people an arable and well-watered land. They remembered the message he had left them—"Dig the channels deep, and keep the dykes low." And to-day the soil is as productive as it was, and extends a welcome to such as would return.

And there, where was Shu of the Three Kingdoms, the people of China are moving back. They are returning to where the old gateways were to the western world, and to where the old Silk Road began.

They are bringing with them the culture of post-Revolution and of pre-War China, and there flourishes the culture of war-torn country.

STABILIZATION

PARLEY

In connexion with the stabilization of the Chinese National currency, the Bank of England expert, Mr. C. Rogers, who arrived in the Colony from Shanghai in the m.v. Victoria, and the Vice-Chairman of the General Affairs of the Chinese Government, Mr. Tsu Kam held a meeting on Saturday at which representatives of local Banks were present.

DEADLOCK IN OIL TALKS

Control Question Causes Split

WASHINGTON, Aug. 12 (Reuter)—Mr. Sumner Wells, acting Secretary of State, at a press conference to-day said that he expects to hold further conferences with

representatives of the Mexican Government and American oil companies concerning the oil negotiations, which at present are deadlocked over the question as to whether the Mexican Government or the oil companies should control the future operations of the oil properties.

OILFIELD SHUT-DOWN ADVOCATED

AUSTIN, TEXAS, Aug. 13 (Reuter)—In order to meet the situation resulting from the cuts in price of crude oil, a shut-down of the vast Texas oilfields for 30 days was advocated yesterday by a majority of members of the Texas Railroad Commission, which regulates the production of crude oil.

Immediate reductions in the price of crude oil ranging from five to 32 cents a barrel were announced by two American oil producing companies yesterday.

NAVY'S CRUISE TO SOUTH

SINGAPORE, Aug. 12 (Reuter)—Twelve submarines, with the depot ship, Medway, and the destroyer Westcott, are expected here on Wednesday from Hongkong.

The aircraft carrier Eagle and the destroyer Defender are also visiting Singapore from Hongkong.

The submarines are to stay for a fortnight's exercises, while the Eagle is staying for several weeks.

RETURNING IN OCTOBER

H. M. S. Eagle and H. M. S. Defender left for Singapore on Saturday. The submarines, Grambus, Odin, Olympu, Otus, Rainbow and Rourqual will also be off to the south for exercises.

It is expected that the ships at Singapore and at Wellesley will all have returned to Hongkong in the beginning of October.

The Commander-in-Chief, Admiral Sir Percy Noble, is still in Wellesley on board the flagship H. M. S. Kent.

ASTONISHMENT

There can be no doubt, continues "The Times," that the Japanese, even if they had been taught to reject the legality of our manifold other grievances against them, will regard with astonishment any concession to the wishes of their Army as long as that Army still holds a high British officer prisoner with complete impunity.

"The 'News Chronicle' says that there is no sound basis for deciding this question on purely legal grounds.

PARTY TO JAPAN'S WAR IN CHINA

LONDON, Aug. 12 (Reuter)—Telegrams of protest to Lord Halifax, the Foreign Secretary, followed the decision of the British Government to hand over to the Japanese-controlled Chinese administration of Tientsin the four Chinese suspects detained in the British Concession there.

The action of Professor Norman Bentwich and Miss Margery Day, who informed Lord Halifax they were applying to the British Courts in China for a writ of habeas corpus, is endorsed by the London Trades Council, which also sent a telegram to Lord Halifax and to the China Campaign Committee.

Judge Grant Jones promised to give his decision as expeditiously as possible—probably on Monday.

PROTESTS ADDRESSED TO GOVERNMENT

LONDON, Aug. 12 (Reuter)—Telegrams of protest to Lord Halifax, the Foreign Secretary, followed the decision of the British Government to hand over to the Japanese-controlled Chinese administration of Tientsin the four Chinese suspects detained in the British Concession there.

The letter adds that the Chinese would be handed over to certain death, while the British Government would be taking another step in the policy of appeasement embodied in the Nine Power Treaty.

Tokyo formula, which did not extend its ratification to the Japanese illegal occupation of certain parts of China.

WIDE SCOPE OF WORK OF INTERNATIONAL RED CROSS IN RELIEVING DISTRESS

CHUNGKING, Aug. 12 (Central)—In the first six months of 1939, the International Red Cross Committee for Central China spent \$339,926.90 for hospital subsidies, medical treatment, refugee relief, special grants to hospitals and miscellaneous grants to orphans and other relief organizations.

The figure does not include hospital subsidies given by the Hankow office of the committee, nor drugs donated to the various hospitals. More than 60 per cent of the amount was used for refugee relief purposes.

When the Committee was inaugurated in September, 1937, in Hankow, with Madame Chiang Kai-shek as patron, it was entirely supported by individual contributions from abroad. Since the formation of the British Relief Fund for Distress in China and the American Church Fund for China, it has been mainly relying on these two foreign organisations.

In addition to cash donations, the Committee also receives donations in drugs from foreign countries.

The Committee is subsidizing 80 civilian hospitals in 12 provinces with approximately 4,000 beds for the wounded, sick refugees and air raid victims. For each in-patient, the committee gives 50 cents a day, and for each out-patient, 10 cents a treatment. An iodine.

COUNT CIANO, Italy's Foreign Minister

HITLER

(Continued from Page 1)

Both the "Frankfurter Zeitung" and the "Hamburger Fremdenblatt" are publishing long articles trying to throw the blame for any possible outbreak of war on Britain.

All commentators advise Britain to come to her senses before it is too late" and not to leave the fate of Europe in the hands of Polish irresponsibility.

The "Frankfurter Zeitung" says: "One would have to be blind not to see that a correction is due in world history and that this correction will come to pass in the not too distant future."

The "Hamburger Fremdenblatt" says: "Germany does not dream of postponing for any length of time the only natural solution to so simple a question as Danzig."

AXIS "HONOUR"

BERLIN, Aug. 12 (Reuter)—The time having come when the right and honour of one of the Axis partners is menaced by force, the Foreign Ministers of Germany and Italy have come together to examine the joint measures to be taken," declares Field Marshal Goering's paper, "National-Zeitung," commenting on the Ciano-Ribbentrop talks.

PARIS, Aug. 12 (Reuter)—A suggestion that the excitement which the German press is endeavouring to stir up under official inspiration may be nothing more than a blind to the real intentions of Hitler is made in the French press.

The newspapers in Paris, as in London, are showing the closest interest in the Axis conference at Salzburg, where Ribbentrop and Count Ciano talked for nine hours yesterday as a preliminary to their visit to Herr Hitler to-day.

Somewhat mixed views are expressed in Paris. While "Figaro" and "L'Espresso" writers do not feel that Italy will not rush into commitments in regard to Danzig, commentators generally recognise the need for a careful watch on developments by Britain, France and Poland.

"Le Jour" is most suspicious. Commenting on the Salzburg discussions, and recent movements in Central Europe, the paper says that everything seems to indicate that Berlin wishes to force Hungary to sign an agreement permitting the Reich to extend her influence and, eventually, her troops into Rumania.

The Danzig issue suggests "Le Jour" may now be only a blind."

Rehabilitation Of Spain

AMBITION PLAN REPORTED

PARIS, Aug. 13 (Reuter)—Far-reaching plans for the rehabilitation of Spain is reported to be under consideration by Franco's government, according to Havas' Tangier correspondent.

It is proposed to give Spain an air force of 1,000 war planes, a standing army of 350,000 men and a fleet of 250,000 tons.

Towns, roads, bridges and canals damaged during the civil war will be reconstructed, and new canals and railways will be built. Ports will be enlarged, while the whole peninsula will be electrified.

Industrial and agricultural production will be increased to the maximum, imports reduced to the minimum and a system of partial economic autarchy introduced.

APPOINTMENTS

PARIS, Aug. 13 (Reuter)—The Spanish Government has approved the appointment of General Gamazo as Italian Ambassador to Spain in succession to Count Di Campillo, according to Havas' Tangier correspondent.

General Jordana, former Foreign Minister, has been appointed President of the Superior Council of State. He will preside at the private council which will advise Gen. Franco independently of the government, and the Falangist Party.

It is also reported that Gen. Villa, former War Minister, will be appointed President of the High Military Court, a position which has been vacant since February.

FREEMASONRY OUTLAWED

MADRID, Aug. 13 (T/Ocean)—Vigorous action by the Spanish Government against freemasonry was announced by the Minister of the Interior, Senor Serrano Suner, in an article in the Falangist organ, "Arriba," on Saturday.

The Minister says that Spain will take the severest measures in order to put an end to the criminal activities of freemasons, and that she will not tolerate any attempt to sow seeds of discord among the Spanish youth.

SPAIN'S NATIONAL PAPERS LOST IN BLAZE

MADRID, Aug. 13 (Reuter)—Many of Spain's most valuable historical documents were destroyed yesterday when fire gutted the National Record Office at Alcala Henares, 12 miles outside Madrid.

BRITAIN PLANS SECOND BIG BLACK-OUT

LONDON, Aug. 13 (BWS)—Arrangements are being made for another big black-out early in September, after the holiday season. Several schemes embracing smaller areas have already been drawn up. Some of the tests will begin earlier in the evening. Practice in every branch of civilian defence will be given.

TURKS PREVENT JEWS' ENTRY

SMYRNA, Aug. 13 (Reuter)—Two more tramp steamers laden with exhausted Czechoslovak Jewish refugees dropped anchor yesterday at Fenike, a small south Anatolian port in the Mediterranean.

The Turkish authorities refused to allow them to land and ordered the steamer's immediate departure.

It is stated that three other steamers with Jewish refugees are cruising about the eastern Mediterranean unable to land its passengers anywhere.

BIG INCREASE IN PAPER MONEY IN JAPAN: FUTURE OUTLOOK NOT A HAPPY ONE FOR THE STATE

TOKYO, Aug. 11 (Reuter)—There has been a progressive increase in paper money in circulation in Japan in recent years. Notes in circulation averaged 2,286,000,000 yen in July. This shows an increase of 380,000,000 yen compared with July, 1938 and an increase of 814,000,000 yen compared with the corresponding period of 1937, the date of the outbreak of the "China Incident."

The average annual increase in note issue before the outbreak of the war was around 100,000,000 yen.

The huge increase in note circulation would not be dangerous if paralleled by an expansion of Japan's economic activity," says the "Asahi Shimbun," "but unfortunately this does not seem to be the case.

BOND ABSORPTION

"An industrial expansion must necessarily be followed by an increase in the nation's power of absorbing bonds. As a matter of fact there has been no appreciable increase in the amount of bonds held by financing institutions and the general public. The amount of bonds now in the vaults of the Bank of Japan suggests that any substantial expansion in the

nation's economic activity has yet to come."

Further evidence that the increase in notes in circulation is a thing on which the Japanese cannot congratulate themselves unconditionally is furnished by the fact that here is a growing shortage of consumer's goods, due to decline in the production of such goods resulting in an inevitable mounting tendency in prices.

The "Asahi Shimbun" calls on the Government to face the fact that there will be an increase in notes in circulation, so long as the present rising tendency of commodity prices continues and describes the future outlook as a happy one for financial circles, but not for the State.

Ciano Talks With Hitler

SALZBURG, Aug. 13 (Reuter)—Count Ciano again visited Berchtesgaden this morning to interview Herr Hitler, with whom he had a conversation lasting just under one hour.

Afterwards, he returned to Salzburg and lunched with Herr von Ribbentrop.

Count Ciano is expected to leave Munich this evening with his staff in a special train for Rome.

Good Crops Expected In Hunan

HENGYANG, Aug. 12 (Central)—Continued favourable weather conditions since the advent of summer augur well for bumper crops in the coming harvest season in various parts of Hunan.

Harvest of rice and wheat in many districts has been especially bountiful. Already the price of rice is beginning to drop. Planting of next season's wheat is being advanced, many farmers having already started work in the field.

CABLE

TIENTSIN'S PLEA FOR JUSTICE

CHUNGKING, Aug. 12 (Central)—The people of Tientsin yesterday addressed two separate letters to Sir Archibald Clark Kerr and M. Henri Cosme, British and French Ambassadors respectively to China, concerning the Tientsin situation.

The letter to the British envoy declared that the anti-British movement was never a spontaneous movement of the Chinese people, but a sinister plot inspired and engineered by the Japanese and designed to drive British interests out of North China.

The letter urged the British Government to adopt a stronger policy against the Japanese.

The letter to the French Ambassador pointed out that British and French interests in China are identical and must stand or fall together. If Britain were forced to surrender, French interests would very soon be wiped out.

GUERRILLAS IN CANTON SUBURBS

SHIHING, Aug. 13 (Central)—Six hundred Japanese and puppet troops have been called back to Canton from Samshui to guard against the increasing activities of Chinese guerrillas in the Canton suburbs.

Reports from the Chaochow front state that, under the escort of six planes, Japanese units from Chaochow launched an attack on Fungkai, twenty-two miles north of Swatow and only three miles from Chaochow, on Wednesday. After encountering stubborn Chinese resistance, the invaders retired to Chaochow, leaving 80 dead.

On the same day, three Japanese warships of light draft and three steamboats proceeded to Tientsin, in Chungshan, where an attempt was made to land marines under a naval barrage. The Chinese opened heavy fire and repulsed them.

VIGOROUS HUPEH ADVANCE

FANCHENG, HUPEH, Aug. 12 (Central)—Hostilities have again been brought to the immediate outskirts of Suifien, important north Hupeh town 105 miles northwest of Hankow now under Japanese occupation, as a result of the vigorous Chinese advance.

The flood forms a useful ally to the Chinese in the Han River valley, in central Hupeh. It has rendered Japanese mechanized equipment ineffective. Taking advantage of the flood, the Chinese have made frequent raids to harass the enemy.

Some 240 Japanese were killed and drowned in the Han River last Monday when their boats were sunk by Chinese fire in an abortive attempt to cross the river at Lohansu.

SUCCESS IN NORTH

KAOAN, KIANGSU, Aug. 13 (Central)—Chinese troops attacked the Japanese at a point near Wanshoukou, a small town about 15 miles southeast of Nanchang in Kiangsi, on August 10. After a night-long engagement, the Japanese were defeated, losing 50 men and two heavy and two light machine-guns, four pistols and 20 rifles.

TWO SHANSI TOWNS RECAPTURED

SLAN, Aug. 13 (Central)—Liangmachen and Fuchengchen on the Hungtung-Tunliu highway in southeast Shanxi have both been recaptured by the Chinese, according to military advices. The Japanese, who suffered over 100 casualties, retreated to Antseh and Houshi.

JAPANESE DRIVE IN SHANTUNG

HAIBIANG, Aug. 12 (T/Ocean)—The director of the Hamburg-Bremen branches of the German East Asia Society, Dr. Otto Richter, is leaving here to-day by the m.v. Duisburg for an extensive tour of the Far East.

His journey, which is being undertaken for study purposes, will include visits to Hongkong, Tokyo, Yokohama, Kobe and Osaka. Afterwards, Dr. Richter will spend four weeks in "Manchukuo" and stay four months in Shanghai.

MORE CHINESE IRREGULARS

CHENGCHOW, Aug. 12 (Central)—A unit of Chinese irregulars under Japanese employ at Chantow, station on the Peiping-Liaoning Railway, in Hopei, recently revolted and joined the Chinese. They killed scores of Japanese during a skirmish and brought three truckloads of ammunition to the Chinese side.

Owing to numerical inferiority, the Chinese withdrew from Liangshan. The Japanese are reported to be pushing westward to Shouchang.

GERMAN ASIATIC EXPERT COMING

HAMBURG, Aug. 12 (T/Ocean)—The director of the Hamburg-Bremen branches of the German East Asia Society, Dr. Otto Richter, is leaving here to-day by the m.v. Duisburg for an extensive tour of the Far East.

Rumours of the impending resignation of the British Ambassador in Berlin, Sir Neville Henderson, are not confirmed in London. Although he is not in the best of health the Ambassador has apparently no intention to leave his post.—(T.O.)

DEATH OF SIR STANLEY MACHIN

LONDON, Aug. 12 (Reuter)—The death is announced of Sir Stanley Machin, formerly president of the London Chamber of Commerce and the Association of British Chambers of Commerce.

The Norwegian Government has placed orders in the United States for twelve Curtis fighting planes of a total value of 3,000,000 Norwegian crowns.—(T.O.)

SUBMARINE LIFTED FROM SEA BOTTOM

PORTRSMOUTH, NEW HAMPSHIRE, Aug. 13 (Reuter)—United States Navy salvage vessels yesterday succeeded in lifting both the bow and the stern of the sunken submarine, Squid, about 60 feet from the seabottom.

The vessel is prepared to tow the sunken submarine to shallow water of the Isle of Shoals.

Hand Grenades Usher S'hai Anniversary

SHANGHAI, Aug. 13 (Reuter)—Eleven casualties, including two women and one Chinese constable of the Shanghai Municipal Police, were caused at 8.20 p.m. yesterday, when two hand-grenades were thrown outside the Japanese sponsored Chinese Inland Shipping Company, in West Hongkew, north of the Soochow Creek and in the British defence sector.

The explosions panicked the densely populated neighbourhood. British Volunteers cordoned off the area while British and Japanese officials conferred on the spot. Hitherto, no arrests have been made. All Volunteers on short leave have hurriedly been recalled to barracks.

The shipping company concerned runs a fleet of launches, tugs and towboats between Shanghai and Soochow.

Japanese Bomb American Church

FOOCHOW, Aug. 12 (Central)—The American Methodist Episcopal Church was hit by three bombs and largely destroyed as the result of a terrific bombing attack by 25 Japanese planes on Changchow in southern Fukien on August 7, according to a belated report.

The Catholic Church was also hit by two missiles and partially destroyed. It is as yet unknown whether any foreigners were killed in the raid.

More than 100 bombs, it is said, were dropped in the crowded sections of the city, a large part of which was reduced to ruins.

The Ministry of Finance of the Chinese National Government has instructed the four Government banks to form a joint committee for the control of domestic remittances. This step is being taken with a view to preventing the outflow of Chinese capital to the occupied areas. The control committee will permit domestic remittances to be made for the purchase of daily necessities only.

This did not hold up or bar completely discussion of such matters in Tokyo, but it indicated that the British point of view was supported by action of other interested powers who have made known to Japan as well as to Britain the fact that they are in no way disinterested in these subjects.

DEATH OF SIR STANLEY MACHIN

LONDON, Aug. 12 (Reuter)—The death is announced of Sir Stanley Machin, formerly president of the London Chamber of Commerce and the Association of British Chambers of Commerce.

The Norwegian Government has placed orders in the United States for twelve Curtis fighting planes of a total value of 3,000,000 Norwegian crowns.—(T.O.)

In compliance with repeated public demands, the Chekiang Chinese military authorities have now given permission for the opening of the Hangchow-Wen-chow road to foreign shipping services. Prior to the outbreak of the current hostilities, the Oukian and Ngao-tung were open to Chinese inland and coastal shipping services, only the Oukian in Wen-chow still is being blockaded by the Chinese military authorities.

MANY SPEED RECORDS GO

AB JENKINS AT SALT FLATS

BONNEVILLE, Aug. 11 (Reuter)—On the Salt Flats here today, Ab Jenkins, the famous American racing driver, broke the world record for the 1,000 miles with 170.767 miles an hour, thus beating the previous record, held by himself, of 168.11 miles an hour.

Jenkins also broke the world record for six hours, with 170.85 miles an hour, the previous record—also his own—being 168.15 miles an hour.

In addition, Jenkins also broke the world record for the 2,000 kilometres with 169.4 miles an hour, beating the previous record, held by Capt. George Eyston, of 163.6 miles an hour.

SOUTH CHINA LOSE TO HERCULES XI

South China Athletic Association lost the third of their tour in Batavia by two goals to three in the presence of 15,000 people on Saturday afternoon, when they were beaten by the Hercules XI. Lee Wai-tong was present but did not play. Leung Shiu-wing, who was injured in Singapore, also did not play.

The goal scorers were Fung King-cheung and Chan Tak-fai.

The Hercules side is considered to be the strongest team in Batavia.

So far the South China tourists have played 26 games, of which they have won 18, lost 3 and drew five. Chan Tak-fai has been the highest scorer.

The tourists have two more games to play in Batavia, one against the Batavia Football Association the other against All-Batavia.

Get the Wright Habit

COOL PEOPLE HAVE AIR-CONDITIONED SKIN

One man will be perspiring and miserable while another is comfortably cool. Why? Because the first man's pores are clogged and therefore his skin cannot "breathe."

Wright's Coal Tar Soap has a rich lather that penetrates the pores, washes away the toxic matter, and leaves behind a clear, antiseptic

freshness that keeps you cool. Sounds good?

Wright's Coal Tar Soap is "good—the real, original Coal Tar Soap, unequalled

for cleanliness and health. The only Soap to receive the highest award of the Institute of Hygiene.

**STUDENTS VISIT
CABLE NERVE
CENTRE**

On Tuesday last, Electra House, Moorgate, the central telegraph station of Cable and Wireless, Ltd., was visited by parties of students from three of the countries with which the Company maintains cable or wireless communication.

In the afternoon, students from Moslem Lyce at Nicosia, Cyprus, exchanged greetings with their parents and received a message from the Governor.

In the evening Canadian and Turkish girl students fraternised during a tour of the operating rooms and they also exchanged messages with their parents.

The Turkish girls sent a message to the British Ambassador at Ankara expressing their appreciation for His Excellency's interest in their visit to England.

Mr. H. E. Gott, Divisional Manager for the United Kingdom, welcomed the girls on behalf of the Chairman Sir Edward Wilshaw K. C. M. G., and afterwards read a message from Sir Edward in which he said that they had inspected what might be described as the nerve centre of the Empire and a link which connected not only the countries of the British Dominion but the rest of the world.

**SHARE MARKET
REVIEW**

**HONGKONG SHAREBROKERS'
ASSOCIATION**

Hongkong, Aug. 11. The week has been very quiet and volume of business has continued to dwindle. The market has been dull with no salient point worthy of record.

Electrics have shown improvement with business at \$54. Lands continued steady at \$34. Wharves were wanted at \$102 without attracting Sellers. A fair business has been reported in HK Docks at \$16 to \$16. Trains remained unchanged at \$16.70. Dairy Farms (o) were wanted at \$20; and Hotels were easier with sales reported at \$4.80.

Gold mining stocks were easier with a tendency to drift downwards. Coco Grove lost 3 cts and closed at 2½ cts. Itogons were down 1 ct. to 23 cts. Masbate closed at 10 cts, a loss of 2 cts. United Paracale at 4½ cts were down 2 cts and San Mauricio lost 1 ct. at 89 cts.

For the purpose of promoting closer trade contacts with Shanghai Chinese industrialists, a party of overseas Chinese industrialists and bankers from Sian, including Messrs. Liang Chien-chu, Teng Ming-kang, Ling Hung-hsing and Chen Chung-ta, is now conducting a tour of inspection of various Chinese industrial plants in Shanghai.

**WEEKLY RUBBER
REPORT**

Liverpool, Aug. 1.
REYNOLDS AND GIBSON

RUBBER

LONDON.—Following the decision of the I.R.R.C. a week ago fixing the exportable quota for the Oct./Dec. quarter at 60%, and at the same time raising the quota for the current quarter to the same figure, our market began to show signs of easing a little. When, however, it became known that a more optimistic view was taken of U.S. consumption for the July/September period in addition to the anticipated French Government purchase, it was clear that the extra allocation would be fully disposed of without augmenting the world stock. At the week end, reports were to hand of German and Russian enquiries in the market for near-by rubber, and early deliveries in consequence are likely to show a rising tendency.

The Malayan Information Agency has published the monthly up-country figures:

Production: Malaya, Estates of

100 acres, and over:—

June May

tons tons

Straits Settlements 1,450 1,387

Federated Malaya States 9,157 9,497

Unfederated Malaya States 7,287 6,935

Unfederated Malaya States 2,030 2,920

5,752 7,120

Production: Malaya, Estates under 100 acres:—

Federated Malaya States 27,200 25,187

Unfederated Malaya States 17,544 16,985

If the keen competition for near

deliveries is to be continued on be-

half of several countries, we

should not be surprised to find

more distant positions gradually

drawing closer to spot. Further

progress in the advance may be

made while demands remain so

insistent.

Movements of Rubber in London

and Liverpool for week ending

July 29, 1939:—

London, Landed 517 tons; Deliv-

ered 1,861 tons; Stock 37,930 tons;

same time last year 62,855 tons.

Liverpool, Landed 346 tons; De-

livered 675 tons; Stock 18,903 tons;

same time last year 33,061 tons.

NEW YORK.—Sympathetically

with the fall in London after the

I.R.R.C. decision, New York prices

slipped back, in all about 40

points. In consequence, the last

day or so the difference at which

New York stood over London, and

to which we referred a week ago,

has narrowed considerably and

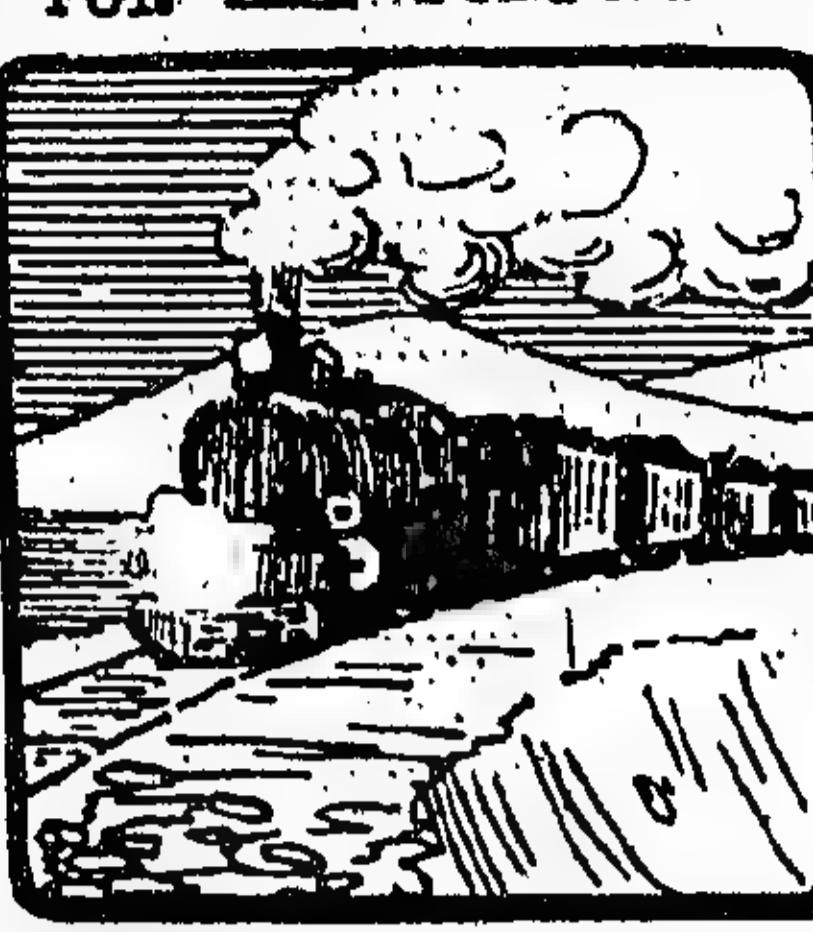

straddle positions have been un-

done.

PROGRESS IN AIR TRANSPORT

RESEARCH CRAFT FOR ATLANTIC

One of the most interesting aspects of world progress in air transport is to be found in the investigations which are now being carried out by meteorologists in regard to the movement of upper-air wind currents above seas and oceans.

Recently a specially-equipped research-ship, the "Carimare," left France to take up a position mid-way between New York and the Azores.

Floating Observatory

Lying at anchor in this position, the "Carimare" will act as a floating observatory, the experts aboard her obtaining data not only as to surface conditions, but also as to wind movements at considerable heights above the Atlantic—the latter information being secured by the sending up of small pilotless meteorological balloons.

A remarkable feature of these balloons is that they will carry up with them a special form of automatic wireless transmitter. This is a very small, light, but highly-efficient piece of apparatus.

As the balloon climbs into the upper air this automatic transmitter sends down messages which are picked up by an operator on the ship below—these signals giving information needed as to barometric and other conditions at the height at which the balloon is moving.

News has reached air experts from Australia of an interesting step now being taken to obtain special data as to upper-air conditions above the Tasman Sea. With a view to the impending flying-boat service which is to operate between Sydney and Auckland.

Research Station

What has been done is to establish a special meteorological research station in a merchant ship the "Awatea," which plies regularly to and from across the Tasman Sea. And in charge of this ship's station will be an expert weatherman, Mr. Alan Martin, who has recently been carrying out special upper-air investigations in Tasmania.

On his voyages to and from across the Tasman Sea, Mr. Martin will take regular upper-air soundings with meteorological balloons, and will transmit special weather reports from his ship to the airports on both Sydney and Auckland.

The importance of such meteorological investigations cannot be over-estimated.

BRITISH AIRCRAFT MANUFACTURER HONOURED: UNIQUE ASSEMBLY

Recently, in London, men who pioneered the heavier-than-air flying airplane before the War, when only a minority believed in the immense potentialities of the new transport vehicle, were present in hundreds at a banquet celebrating the thirtieth anniversary of incorporation of the first company in the world to be constituted solely for the design and manufacture of airplanes.

Mr. Handley Page, in his own words "the oldest employee of Handley Page, Limited," its founder and directing head, since he left the electrical engineering profession in 1908 to enter the crazy business of aircraft construction, had sought to bring together all those who had practical faith in the new art and science. The result was an assembly unique in the history of aviation.

Lieutenant-Colonel J. T. C. Moore-Brabazon, holder of the first certificate ever issued in this country to a qualified aeroplane pilot, spoke of his memories of the past and his still unquenchable hopes for the future "when the aeroplane shall be turned to the paths of progress and closer communion for all mankind which was the dream of the pioneers."

Mr. H. G. Wells, whose imaginative stories ran ahead of the pioneers and forecast their future achievements to an incredulous world, had near him at table Rear-Admiral Sir Murray Suter, "father" of the Royal Naval Air Service and its successor, the modern Fleet Air Arm.

The Other Guests
Mr. George Volkert, designer of every Handley Page aeroplane;

GENERAL

KWEILIN PUBLIC BODIES URGE SUSPENSION OF TOKYO NEGOTIATIONS

KWEILIN, August 11 (Central)—Public bodies in Kweilin have sent a message to Sir Archibald Kerr Clark Kerr, British Ambassador to China, requesting him to convey their anxious hope that the British Government will not yield to the Japanese demands in the present negotiations in Tokyo.

Another message from the same bodies has been sent to Lord Cecil, President of the International Peace Campaign, expressing the hope that the British people will urge their Government to stop the Tokyo parley.

The Message

The message to Sir Archibald reads:—"We wish, first and foremost, to express our gratitude to Your Excellency for the sympathy shown and assistance rendered to us by His Majesty's Government and the British people in our resistance against Japanese aggression."

"It is, however, regrettable that an unexpected preliminary agreement has recently been concluded between the British Ambassador to Japan and the Japanese Minister of Foreign Affairs at the Tokyo parley and the formal negotiations have already been opened. Such steps seem to be not only contrary to justice but also prejudicial to the cause of permanent peace of the Far East and even the interests of the British Empire herself."

"We, therefore, earnestly request Your Excellency to convey to His Majesty's Government our anxious hope that Great Britain will never yield to the Japanese demands, but, on the contrary, will, for the sake of justice and peace of the Far East, take further steps to carry out the resolutions of the League of Nations by helping China and applying sanctions against Japan."

Second Message

The message to Lord Cecil reads:—"We have always felt very grateful to your organisation and the people of the British Empire for the sympathy shown and assistance against Japanese aggression."

"It is, however, regrettable that an unexpected preliminary agreement has recently been concluded between the British Ambassador to Japan and the Japanese Minister of Foreign Affairs at the Tokyo parley and the formal negotiations have already been opened. Such steps are not only contrary to the Covenant of the League of Nations, the Anti-War Pact and the Nine-Power Treaty, but also prejudicial to the cause of permanent peace of the Far East and even the interests of the British Empire herself."

"The Chinese Government and people have long since resolved to prosecute this war of self-defence under the leadership of Generalissimo Chiang Kai-shek persistently to its victorious end."

Stop The Parley

"We, therefore, earnestly hope that the people of the British Empire will urge, in the anti-aggression spirit, their Government to stop the Tokyo parley and, for the sake of justice and peace of the Far East, take further steps to carry out the resolutions of the League of Nations by helping China and applying sanctions against Japan."

The messages were signed by Pei Peng-fai, President of the University of Kwangsi, Tong Jen-chi, Acting President of the Kiangsu College of Mass Education, the Reconstruction Research Institute of Kwangsi, the Kweilin Chamber of Commerce, the Kweilin Labour Union, the Kweilin Farmers' Union, the Y. M. C. A. and twenty-eight other organisations in Kweilin.

NORWAY'S DIVING CAT

A large cat with a passion for salmon is the despair of anglers at Gudenaasden in the Teiring district of Norway.

According to the newspaper "Hufvudstadsbladet" this cat can be seen almost at any morning at dawn crouching on the river bank watching for her prey. When she sees a fair-sized salmon she dives in and catches it.

The cat's catch is said to amount to three or four fine fish a day.

John Salmon, for years now a Government director of Imperial Airways—those and scores more famous makers of air history were there.

To Prevent Breeding Of Mosquitoes

Mr. E. T. Dyson, Government Agent, Central Province, contributes to making Ceylon malaria free, for whenever he walks through a village, he kicks coconut shells and such other receptacles in which mosquitoes may breed, and turns them over to prevent water from collecting in them.

He realised, of course, that his doing so made no great difference, but he thinks that if everybody in the village did the same thing, it would make a difference.

So said Mr. Dyson, in the course of a speech he delivered at the Town Hall in connection with the celebrations of Malaya Week in Kandy. Sir Cuthbert Ratwatte presided.

ther and have combined artistic and commercial displays of the effort with trade publicity, as cottage industry products of advertisements for Burmese teak Burmese

GOBS FROM PEARY MAKE LOCAL BASEBALL DEBUT

(By "R.O.Y.")

In the only league match of the week, South China held on to fourth position in the league standings by virtue of a 6-4 victory over the Club de Recreio.

On Saturday, the Hongkong Baseballers chalked up their only win of the year, taking the inexperienced Royal Engineers by 13 runs to 3. The U.S.S. Peary made their local debut in an exhibition match against the Combined Chinese but, owing to lack of practice, were defeated by the comfortable margin of 9 to 1.

The Recreio-South China clash was quite interesting despite the lack of customary barracking. Johnny Alvares started on the mound for Recreio with brother Al behind the plate. South China commenced well, tallying three times in each of the first and second frames.

In the opening stanza, Bill Hong Sling and George Wu both walked and advanced to second and third. Chang filed out to rightfield. Sling crossed the plate on a passed ball. Chan walked and took second unassisted. Chu batted in Wu and Chan with a single then pilfered second. Wong filed to Marques and Szeto grounded to Perera to end the frame.

The Portuguese threatened in their half but were unable to score. Marques led off and bunted but was thrown out by Chang. Beltrao popped to the same player but Johnny Alvares beat out a roller to third. Spotty Pereira bungled to send Alvares to third, but Mike Mendonca pushed an easy grounder to Sling for the third out.

South China's second bunch of tallies came when K. H. Chang singled and advanced on a passed ball. Ip drew a pass and Chang took third when the ball again got away from Al Alvares behind the plate. Sling batted in Chang with a hit to short centre while Ip crossed the plate on George Wu's sacrifice. Sling advancing and coming home when Mike Mendonca fumbled Chang's daisy cutter. Mike again miscued when Chan drove a grounder to him, but trapped Chang between second and third only to fail to run him down with the help of Alvares, Beltrao and Marques. Chu filed out to Beltrao and Wong was thrown out at the initial station by Mendonca.

General Cargos will be discharged into Holt's Wharf, Kowloon, where it will lie at Consignees' risk and subject to the Terms and Conditions of Storage at Holt's Wharf.
